## Soft Skills

- **Communication:** Consistently excelled in connecting with diverse individuals, demonstrating strong networking and negotiation abilities across all roles.
- **Critical Thinking:** Developed and applied high-level critical thinking through rigorous research, decision-making, and solution implementation in both academic and professional settings.
- **Customer Service:** Proven ability to connect with and serve diverse individuals, honed during my tenure as a McDonald's Crew Member and a Junior Full Stack Developer at Newpath.
- **User Support:** Extensive experience in end-user support, software installation, and troubleshooting, particularly at Newpath Web.
- **Teamwork and Collaboration:** Successfully collaborated with various teams, including QA and Business Analysts, during studies and internships.
- **Problem-Solving:** Continuously demonstrated excellent problem-solving skills across all roles.
- **Time Management and Analytical Skills:** Mastered through balancing work and study, consistently delivering outstanding results.

## Technical Skills

- |                           |              |        |                   |
|---------------------------|--------------|--------|-------------------|
| • HTML, CSS, PHP, Laravel | • WordPress  | • SCSS | • Angular         |
| • MySQL                   | • Drupal     | • NPM  | • GitHub          |
| • Java                    | • JavaScript | • Node | • Web Maintenance |

- Linux
- Version Control
- Python
- JSON

## Projects

### [LongD and SaveUp Mobile Applications](#)

**Company:** Quake Technology Inc.

**Date:** August 2023 – November 2023

**Technologies:** Angular, Ionic, CSS, Node.js, Firebase, APIs

**Description:** Developed two mobile applications, LongD and SaveUp, using Angular and Ionic frameworks. Designed and implemented the front end using CSS and Node.js, integrated Firebase for backend services, and implemented user authentication and API integration to enhance functionality and user experience. Successfully coordinated with the founder and team members to meet project deadlines and ensure high-quality delivery.

### [CADS Project \(Coalition Against Duck Shooting\)](#)

**Company:** Newpath Web

**Date:** Feb 2022 – July 2023

**Technologies:** PHP, HTML, WordPress, DevOps

**Description:** Led the development of the CADS project for the Coalition Against Duck Shooting, utilizing PHP, HTML, and WordPress. Managed the project end-to-end, from requirement gathering to deployment. Ensured timely updates and maintenance of the website using DevOps practices. Collaborated closely with clients and team members to deliver a high-impact digital experience.

### [Client Websites for Kiah, Julian Midwinter & Associates, and Calibre Business Advisory](#)

**Company:** Newpath Web

**Date:** August 2022 – July 2023

**Technologies:** PHP, HTML, WordPress

**Description:** Successfully delivered and updated websites for various high-profile clients, including Kiah, Julian Midwinter & Associates, and Calibre Business Advisory. Utilized PHP, HTML, and WordPress to develop and maintain dynamic, user-friendly websites. Worked closely with clients to understand their needs, implemented requested features, and ensured the websites were up-to-date and running smoothly.

### [Personal Portfolio Website](#)

**Date:** Ongoing

**Technologies:** HTML, CSS, JavaScript, GitHub Pages

**Description:** Designed and developed a personal portfolio website to showcase my projects and skills. Utilized HTML, CSS, and JavaScript to create an engaging and responsive design. Hosted the website on GitHub Pages, ensuring it is easily accessible to potential employers and collaborators. Continuously update the portfolio with new projects and improvements.
